AECOM DELIVERING A BETTER WORLD.

A trusted partner of the U.S. Air Force since 1956

We've supported the U.S. Air Force (USAF) mission for 70 years and the U.S. Space Force (USSF) since its inception.

We understand the complex challenges the USAF and USSF face and work in collaboration to develop innovative solutions that meet your needs. With more than 70 contracts currently in place to support the mission, our strengths lie within our global and enterprise-wide capabilities, rapid response and diversity of services.

From planning, design and commissioning to environmental remediation, our integrated approach transforms project outcomes with fast-tracked services that ensure projects are completed on time, within budget and to the highest standards of safety and quality.

70
years supporting the USAF mission

70+
contracts serving USAF and USSF bases worldwide

2,000
task orders executed for the USAF in the last 10 years

Key services

- A/E services, Title I and Title II
- Asset management
- Construction management
- Contingency / emergency services
- Cultural resources management
- Energy
- Environmental planning / NEPA
- Environmental remediation / HTRW
- Fire protection engineering
- Fuel system design / construction
- Master planning
- MILCON and MFH design / construction
- Program management
- Water resources

Key contracts

- AFCEC A/E Services for Design & Construction Support (A/E DCS NEXT) FA8903-21-D-0002
- USAFA Planning & Conceptual Design A/E Services FA7000-21-D-0007
- USAFA & Space Force Front Range Contract
- Multiple USACE, NAVFAC & GSA Contracts

AECOM

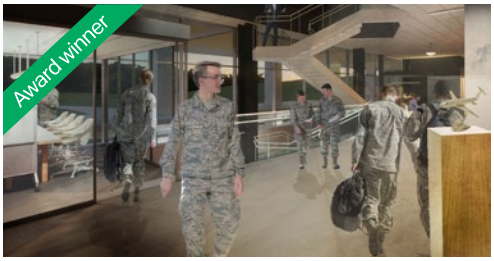

Delivering project innovation to USAF & USSF installations worldwide

U.S. Air Force Academy Chapel Restoration (CO) Working with collaborative partners and using theoretical models to simulate topography and wind conditions, our design to restore / repair the building envelope seals out weather elements.

Tyndall AFB Recovery Plan (FL) After Hurricane Michael devastated Tyndall AFB, we led development of a fast-tracked recovery plan that not only repairs and rebuilds the base, but reshapes it into an "installation of the future."

USAF Madera Center for Cyber Innovation (CO) We partnered with the USAFA to design the 43,000-sq-ft Cyberworx facility—a reconfigurable space for innovative collaboration among the USAF, academia, and industry.

F-15 Beddowns (Middle East) We provided concept design and Title II services at four installations for beddown construction valued at $500M+ and complete design of 54 mission facilities at another location valued at $900M+ on a fast-track, 14-month schedule.

C-17 Corrosion Control Hangar & Facility (HI) We fast-tracked design and provided construction management services for a fully-enclosed 60,000-sq-ft hangar and 20,000-sq-ft facility to properly perform aircraft maintenance for C-17 Globemaster IIIs.

Military Family Housing (Multiple Locations, US) We are providing A/E services to support the Military Housing Privatization Initiative Program at multiple bases CONUS-wide.

USAF Installation Development Plans & Area Development Plans (Multiple Locations) We've completed 30+ installation development plans (IDPs) and area development plans (ADPs) at U.S. Air Force bases both CONUS and OCONUS.

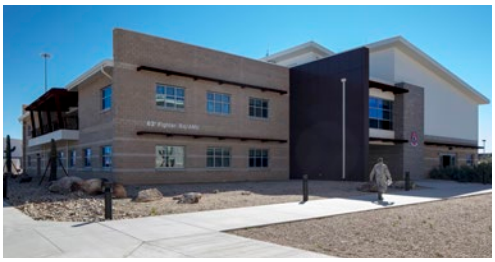

Former Reese AFB PFAS Investigation (TX) We are conducting an affected property assessement investigation of per- and polyfluoroalkyl substances (PFAS).

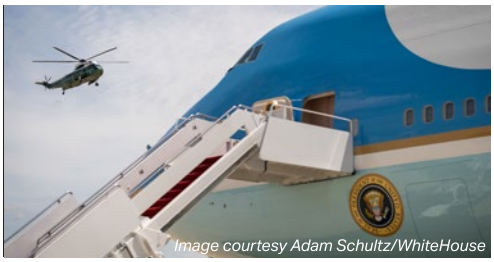

Cargo Pad & Taxiway Ramp Repair (Wake Island) Utilizing highly technical marine mobilization to access remote site, we provided D-B construction services as well as lighting, grounding, and pavement markings for repairs to cargo pad and taxiway.

Asset Inventories & Condition Assessments (Germany & Turkey) We performed sanitary sewer compliance evals, asset inventories, condition assessments, and inflow and infiltration surveys to develop prioritized capital improvement recommendations.

Luke AFB Renovation Design (AZ) As Designer of Record, we completed design for the renovation of Squadron Operations and Aircraft Maintenance Unit Hangars 3, 4, and 5 for the Joint Strike Fighter F-35 aircraft beddown.

JB Andrews Presidential Aircraft Recapitalization Program EIS (MD) We completed a complex Environmental Impact Statement on an aggressive schedule to maintain MILCON project schedules.
