

# FACT SHEET

**AECOM** is a global network of design, engineering, construction and management professionals partnering with clients to imagine and deliver a better world. From high-performance buildings and infrastructure, to resilient communities and environments, to stable and secure nations, our vision is to be the premier, fully integrated infrastructure firm.

For the last four years, we have been named one of *Fortune's* World's Most Admired Companies. Additionally, we have been ranked #1 in Transportation and General Building in *Engineering News Record's* 2018 "Top 500 Design Firms" and recognized as *Construction Dive's* "Company of the Year" for the second year in a row.

Our company is made up of four segments, including:

## Design and Consulting Services (DCS)

We provide world-class design, architecture, engineering and consulting services as a market leader in transportation, water, environmental, energy, buildings and public spaces.

## Management Services (MS)

We work with governments around the world supporting programs of critical national importance in the areas of defense, security and intelligence, energy, infrastructure and international development, and environmental cleanup.

## Construction Services (CS)

As the builder of some of the world's most iconic and challenging structures ever conceived, we partner with owners, developers and infrastructure providers in the building construction, civil, oil & gas and power sectors.

## AECOM Capital

We are the investment arm of AECOM that invests in and manages the development of real estate, public-private partnerships and infrastructure projects.

**NYSE: ACM**

## FINANCIAL PERFORMANCE

**Our Design, Build, Finance, Operate strategy and scale are driving substantial momentum**

### Strongly positioned for multi-year trends

- US\$48 billion in record backlog provides several years of visibility
- Long-term funding as a result of substantial federal and state-level measures
- Favorable legislative backdrop created by strong support for infrastructure and defense
- Significant exposure to attractive end markets, where we generate the majority of our profits

## KEY PROJECTS AND RECENT WINS

### **SONGS, San Clemente, CA, U.S.**

AECOM, in a joint venture, is providing decommissioning services at San Onofre Nuclear Generating Station, leveraging capabilities within each of our DCS, CS and MS segments.

### **Rotary Wing Flight Training, Fort Rucker, AL, U.S.**

AECOM has been awarded a nine-year contract by the U.S. Army Mission and Installation Contracting Command, Joint Base Langley-Eustis, Virginia to provide rotary wing flight training instructor support services at Fort Rucker, Alabama.

### **One Vanderbilt, New York, NY, U.S.**

One Vanderbilt is a world-class commercial office development in New York City. Upon completion, this supertall skyscraper will top out at 1,401-feet tall.

**REM, Montreal, Canada.** AECOM, through a partnership on the design team, was selected as the preferred proponent for the infrastructure engineering, procurement and construction of the Réseau express métropolitain (REM). Once built, the REM will be the largest automated transportation network in the world after those of Singapore, Dubai and Vancouver.

---

## ICONIC PROJECTS

### One World Trade Center

Tallest building in the Western Hemisphere standing 1,776 feet high. Its sheer size, geographic constraints and operational necessities make it one of the most complex projects ever built.

### Taizhou Bridge

First ever, three-tower suspension bridge connecting four main cities in China.

### Crossrail London

Largest construction project in Europe, stretching more than 62 miles from Maidenhead and Heathrow Airport in the west of London with Shenfield and Abbey Wood in the east.

### Rio 2016 Olympic and Paralympic Games

AECOM won an international competition to design the Games' master plan, which included three stages: games, transition and legacy.

### Hyperloop Technologies

Imagine traveling at airline speeds for the price of a bus ticket. AECOM is the only infrastructure company in the world to have planned, designed and constructed Hyperloop projects.

### Los Angeles International Airport

AECOM is managing the comprehensive LAX implementation plan for modernizing the airport.

---

## VALUES

Our values define who we are, how we act and what we aspire to:

### Safeguard

We operate ethically and with integrity, while prioritizing safety and security in all that we do.

### Collaborate

We build diverse teams that connect expertise to create innovative solutions.

### Inspire

We develop and celebrate our people, and elevate the communities we touch.

### Anticipate

We understand the complexity of our clients' challenges and help them see further.

### Deliver

We grow our business through operational excellence and flawless execution.

### Dream

We transcend the industry by reimagining what is possible — and realizing it.

---

## SAFETY

"Safety for Life" is AECOM's comprehensive internal program that drives our employees toward the company's commitment to achieving zero work-related injuries and illnesses, preventing damage to property and the environment, and maintaining an environmentally friendly and sustainable workplace.

Whether located on a project site, in the office or at home, we embrace safety as a lifestyle choice by maintaining essential safety procedures and behaviors everywhere we go.

---

## CORPORATE RESPONSIBILITY

Inspired by the tangible impact our employees make on the world, our Corporate Responsibility platform — *Blueprint for a Better World* — brings to life our purpose, reflecting our core values as well as our strategic priorities.

Our mission: To deliver safe and secure infrastructure to those who need it most, to create opportunities for the leaders of tomorrow and to protect our planet so that, together, we can realize our dream of a better world.

---

## SUSTAINABILITY

Healthy societies depend on physical and social infrastructure to advance economic opportunity, protect our environment and improve people's lives.

Our commitment to sustainability goes beyond meeting client requirements and complying with environmental rules and regulations at the local, state/provincial and national levels. We seek to innovate and deliver solutions that are resilient to a dynamic and unpredictable world, reduce pollution, are environmentally sustainable and conserve resources.

## OUR HISTORY

Twenty-eight years ago, AECOM launched when a handful of employees from design and engineering companies shared a dream of creating an industry-leading firm dedicated to making the world a better place.

AECOM became an independent company formed by the merger of five entities. While our official founding was in 1990, many of our predecessor firms had distinguished histories dating back more than 115 years.

Since then, more than 50 companies have joined AECOM and, in 2007, we became a publicly traded company on the New York Stock Exchange.

In 2014, we more than doubled our revenue and workforce, which expanded our capabilities and solidified us as a premier, fully integrated infrastructure firm.

Today, listed at #164 on the *Fortune 500* as one of America's largest companies, AECOM's talented employees now serve clients in more than 150 countries around the world.
